Introduction

This guide will provide you the necessary steps on how to register a trademark in the Trademark Clearinghouse user interface.

For the purpose of the Trademark Clearinghouse, a Trademark Holder is an owner, licensee or assignee of a trademark. A Trademark Agent is a third party such as a law firm, agency, or domain name registrar appointed to manage trademark records on behalf of a Trademark Holder.

The contracting party is the Trademark Holder or Trademark Agent that will be under contract with the Trademark Clearinghouse and will receive the applicable notifications from the Trademark Clearinghouse.

The application user is the person that will be managing the trademark records in the Trademark Clearinghouse as well as other services offered by the Trademark Clearinghouse.

A label is a part of a domain name that can be associated with a trademark record, based on the matching rules published on [the official ICANN website](#) (e.g. label “tmch” in the domain name www.tmch.com).

For more information on variations, we kindly refer to the “[How to add variations](#)” manual.

1.8. Activate Norn-to-Holder service

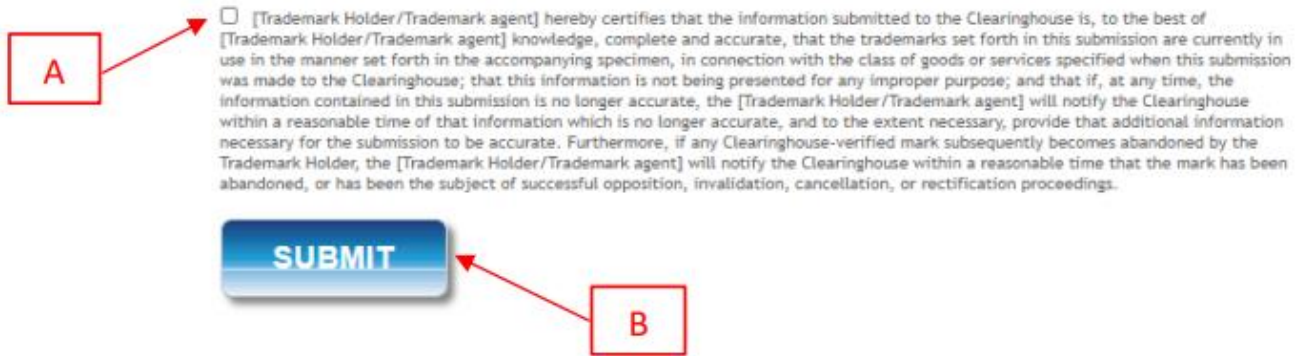

If you are a Trademark Agent, you can also choose to activate the “Copy of NORN to Holder” service. Trademark Holders, represented by a Trademark Agent, will also benefit from the TMCH notifications by receiving direct copies of them. For more information on this service, we kindly refer to [the FAQs](#) available on the Trademark Clearinghouse website.

1.10. Proceed to order the submitted trademark records

1.10.1. A maximum of 10 trademark records in one order is allowed

Once you have added the requested trademark records, you must first confirm the order to finalize the submission of the trademark records. You will be able to add multiple trademark records in one order, but due to security and abuse prevention reasons, there is a limitation of 10 trademark records per order (payment transaction).

This measurement will prevent you from adding more than 10 trademark records in the order page by displaying the following message as shown in the image below:

1.10.2. Review of the trademark records available in the order page

After submitting your trademark record and if less than 10 trademark records have been recorded, you will be redirected to the "Review Order" page.

Trademark records added will be listed with the name and the duration of the registration in the Trademark Clearinghouse.

On this page, you will be able to:

- Delete specific trademark records from the order page by clicking on the bin icon (A);
- Update the duration for each trademark record by selecting 1, 3 or 5 years (B);
- Add another trademark record to your basket (“Add other mark record”) (C);
- Finalize your order (“Submit all for checkout”) (D).

Once you click on a trademark name, you will be redirected to the details of your trademark record, which you can still update (by clicking on “Edit”). If you wish to edit some trademark details, please note that you need to accept again the Terms and Conditions at the bottom of your page and that you have to click on “Update” at the bottom of your page to save your modifications. Then you need to click on “Review” in the top-right corner of your page to go to the “Review Order” page.

As mentioned above, the duration of the trademark record registration can be changed and updated. By clicking on the arrow next to “New registration for”, a dropdown list will be available, in which you can choose the duration you would like to have the trademark record registered with the Trademark Clearinghouse. After choosing the duration, the changes will be registered in the order page.

The duration of trademark records that are valid in the Trademark Clearinghouse can be 1, 3 or 5 years.
