1. Introduction

Out of the Clearinghouse implementation discussions, a Strawman solution was proposed to balance and address the concerns of affected stakeholders. This covered the inclusion of domain names previously determined to have been abusively registered (hereinafter "Abused DNL") in the Clearinghouse to receive Trademark Claims service.

ICANN has requested the Clearinghouse to implement the point of the Strawman model, balance and address the concerns of affected stakeholders. The following guide explains how to add the abused domain name labels and their corresponding UDRP or Court Cases. The following guide will explain how to add the abused domain name labels and their corresponding UDRP or Court cases. For an overview of our UDRP/Court case pricing please refer to the fee structure.

Please note that Abused Domain Name Labels are only valid for the Claims service.

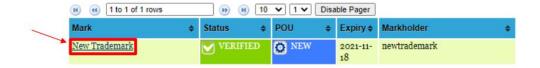

2. Adding UDRP cases

2.1. Adding a UDRP case and labels

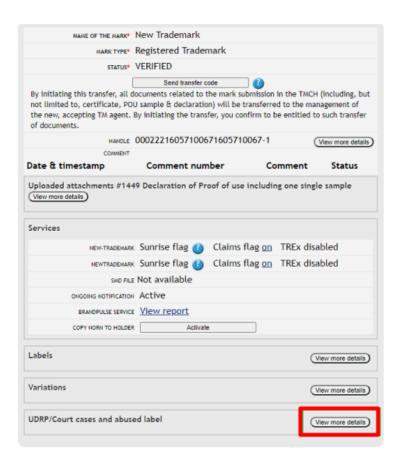

After your trademark record has been verified, you will be able to add a UDRP case and the related abused label(s) to the trademark record.

To do so, log into your TMCH account, you will automatically be on tab on the "Mark overview page". Then, click on the trademark record for which you would like to add the UDRP case and labels and scroll down to the bottom of the page.

Mark overview

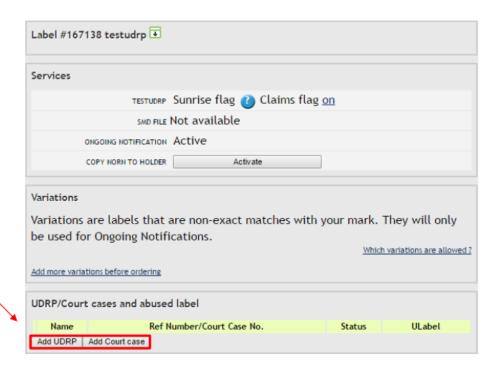

Click on the "View more details" button next to "UDPR/Court cases and abused label".

Select "Add UDRP" in order to add a UDRP case. Please note that the type of case can be changed later in the process as well.

2.2. Registration page

After clicking on "Add UDRP" you will be redirected to the registration page.

On the registration page, fill in the mandatory fields (marked with an asterisk) of the case and add the labels. On this page, you will also be able to select the "Case type" you wish to submit.

Please note the following:

D

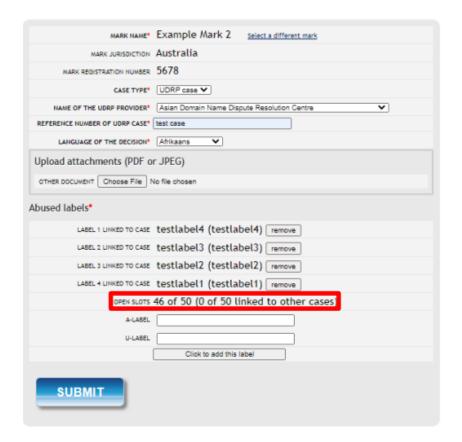

- Depending on previous cases, you will have the possibility to add up to 50 labels. If you added a case before, this number will be less. You can check the number of allowed labels by looking at the "Open slots" field (A).
- You can add the labels in "A-label" or "U-label" form. Only the "U-label" will be shown In the overview (B).
- At least 1 label must be added, therefore, <u>do not forget to click on "Click to add this label"</u>, otherwise the label will not be added to your case (C).

After you have filled in the mandatory fields and added the labels, select "Submit" (D). You will now be redirected to the order overview.

Please find below an example of a completed registration form for a UDRP case. As can be seen in the example, the "Open slots" count has been lowered to 46, since 4 abused labels have earlier been added.

2.4. Payment page

After clicking on "Submit all for checkout" on the "Review Order" page, you will be redirected to the payment page. Click on "Pay prepaid" (for Agents or Holders with a Prepayment account) or "Pay with credit card" (for Holders) to confirm and pay for your order.

2.5. Validation of UDRP cases and labels

After you have paid for the UDRP case and the labels, you can track the progress of the validation in the "Cases" tab.

You can expand the U-labels by clicking on the arrow (A) to view all labels related to the case.

2.5.1. Case and label(s) "VERIFIED"

If the case and labels are "VERIFIED", no further action is needed, and you will have protection for the abused labels during the Claims period of the gTLD. Please refer to section 2.5.5 for an example.

2.5.2. Case "INCORRECT"

If the assigned status of the case is "INCORRECT" you will need to change the information provided during the registration of the case as described in the comment of the validator. When clicking on the case (e.g., test case 2 in section 2.5.5) you will be able to edit your case. If the case is assigned to status "INVALID" it cannot be edited anymore. Please refer to section 2.5.5 for an example.

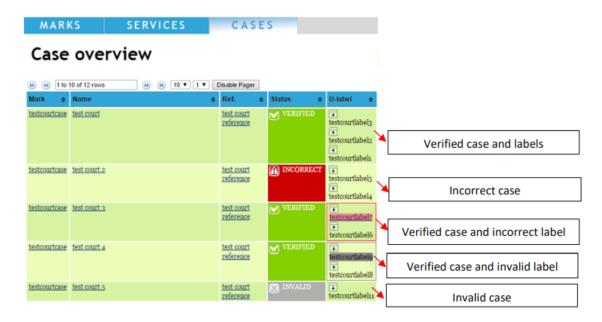

2.5.3. Case "VERIFIED" – label(s) "INCORRECT"

If the assigned status of the case is "VERIFIED" but at least one of the labels is "INCORRECT", you will need to change the information provided during registration of the labels as described in the comment of the validator. You can identify the cases with incorrect labels as they have a red box around the label field. The actual incorrect label(s) are marked in red.

2.5.4. Case and/or label "INVALID"

If the case and/or label is assigned status "INVALID" it cannot be edited anymore. Please refer to section 2.5.5 for an example.
